

KOLBY D. BOYD

Houston, TX · 919-961-8222 · kolbyboyd970@gmail.com · linkedin.com/in/kolby-boyd · peoplespatterns.com

Self-directed product builder who shipped a production SaaS in 10 weeks using AI-assisted development tools (Claude Code, GitHub). Multi-cloud infrastructure, full Stripe payment integration, and 121 live garment patterns. Background in high-stakes operations: aviation, facilities, and VIP logistics. Targeting Technical Product Manager, Solutions Engineer, and Developer Advocate roles.

PRODUCT DEVELOPMENT

Founder & AI-Assisted Product Developer — *People's Patterns (peoplespatterns.com)* Mar 2026 – Present

Founded and shipped a production SaaS generating made-to-measure sewing patterns in-browser from zero to live in 10 weeks, directing AI-assisted development tools (Claude Code, GitHub) across the full product lifecycle.

Architected multi-cloud infrastructure: Cloudflare Pages (edge-distributed frontend + 34 serverless API endpoints), AWS Lambda (Chromium/Puppeteer PDF generation, 1 GB memory), and Supabase (PostgreSQL + auth + realtime); migrated from Vercel, reducing egress costs approximately 30%.

Integrated Stripe end-to-end: 3-tier subscription pricing (\$9/\$14/\$19), 10 bundle SKUs, cart checkout session, webhook pipeline triggering on-demand PDF generation, and server-side payment verification in Lambda.

Deployed a parametric pattern engine spanning 54 garment modules (121 patterns via variants) validated against 5 industry drafting standards (Aldrich, Armstrong, FreeSewing v4.7.0, Muller & Sohn, JBlockCreator); computes per-edge seam allowances, bezier curves, dart closure, and multi-size grading across women's, men's, and children's charts.

Built a multi-format PDF layout engine supporting 8 paper sizes (Letter through A0/ARCH D) with automatic scale calibration (0.5% tolerance), notch and grainline annotation, and tiled multi-page assembly maps.

Instrumented a PostHog analytics funnel with 23 custom events (garment_selected to purchase_completed to download_initiated), Core Web Vitals, A/B testing via feature flags, and session recording to drive CTA and pricing iteration.

Designed 18 Supabase migrations (purchases, subscriptions, fit feedback, affiliates, tester program, admin roles, redemption codes, community garments); shipped 6-locale i18n (en, en-CA, fr-CA, es, nl, de) with locale-forwarded PDF generation in Lambda.

Authored 68 educational articles; deployed automated Resend email sequences (welcome, purchase confirmation, post-sew fit feedback) via GitHub Actions cron; built affiliate dashboard, gift card and redemption flow, UGC submission pipeline, and admin console.

INFRASTRUCTURE & TOOLS

Cloud: Cloudflare Pages · AWS Lambda · Supabase (PostgreSQL) · GitHub Actions · Vercel **Payments:** Stripe

Analytics: PostHog **Email:** Resend

Build: Vite · Node.js · Puppeteer · Chromium (serverless) **Other:** REST APIs · Webhooks · Serverless · i18n · PDF generation · A/B testing

PROFESSIONAL EXPERIENCE

Porter, Commercial Building Maintenance — *Tarantino Properties, Houston, TX* Jan 2026 – Present

Maintain multi-tenant commercial office portfolio. Operate pneumatic HVAC and thermostat systems; perform electrical maintenance including LED conversion; coordinate with Johnson Controls and fire protection vendors as on-site liaison.

Flight Operations Coordinator — *Million Air / American Jet International, Houston, TX* Nov 2023 – May 2025

Coordinated daily operations for 13+ tenant and charter aircraft at a high-volume FBO. Sole overnight coordinator managing scheduling, crew assignments, FAA compliance, and VVIP/medical flight operations. Standardized escalation workflows, cutting issue resolution time 30%.

Senior Services Coordinator — *GGT WorldWise, Houston, TX*

May 2022 – Oct 2023

Led night-shift operations managing global VIP transportation across time zones with full accountability. Maintained 98-99% booking accuracy. Onboarded clients to proprietary SaaS scheduling platforms and supported escalations to engineering teams.

EDUCATION

Associate of Arts, Multidisciplinary Studies — Houston Community College

Expected Fall 2027
